NZBN (if applicable)	<input type="text" value="9429037435394"/>

Product Identifier/Drawing (if applicable):

Product Description:

Konnect branded screw bolts are available in Zinc and Galvanised finishes. They are used to anchor objects into concrete and masonry by self tapping a thread into the substrate. The screw bolts have a serrated hex flange head to increase clamping force.

Support Services:

East Tamaki, Auckland 2013

Ph: (09) 276 0760

Konnect is a registered trademark of Coventry Group (NZ) Ltd. NZBN 9429037435394 T/as Konnect Fastening Systems

Scope of Use

Screw Bolts can be used to provide permanent or temporary anchoring in concrete or masonry products. They are suitable for close to edge applications as they are not an expansion anchor.

Limitations

Marine use and high corrosion areas

Materials

Zinc
Galvanised

Installation

It is the responsibility of the user to select the correct size and grade of fastener that will meet the requirements required for that particular installation and environment

1. Drill a hole to the required size and embedment depth
2. Clean dust/material from hole
3. Screw in anchor using appropriate tooling

Maintenance

Periodic inspection for corrosion recommended
