Product Description:

Konnect Roofing fastener systems have a self-drilling tip, a threaded shank, a sealing washer and a hex drive head. Heads are stamped with a 'K' followed by the durability class in accordance with the tests conducted to AS/NZS 3566. Screws may be accompanied by profiled, embossed, or bonded over-washers and an EPDM Neo under the head of the HWF of the screw.

Konnect is a registered trademark of Coventry Group (NZ) Ltd. NZBN 9429037435394 T/as Konnect Fastening Systems

Scope of Use

Generally used for attaching roofing and wall cladding to primary structures, flashings and side laps to roofing sheets or to primary structure.

Limitations

Contact with corrosive and incompatible materials, prolonged exposure to damp or corrosive internal environments must be avoided.

Materials

Shank Mechanical galvanised coated steel, or Stainless steel grade 304 and 316
Sealing Washer EPDM
Over-washers Galvanised steel grade Z450, Aluminium or Stainless steel

Installation

Installation should be carried out by a suitably qualified practitioner in accordance with good trade practice, manufacturers recommendations and the Metal Roofing and Wall Cladding code of practice.

Maintenance

Maintenance must be carried out in accordance with the manufacturer's recommendations. Screws exhibiting red rust of the shank should be replaced before they affect the durability of the material being fastened.
